

# CONNECT LITE+

## EASY ENTERTAINMENT CONTROL

- ✓ Low cost, expandable integrated automation system, from a lighting controller to a full pool management system
- ✓ Built in programmable timers for your pool and spa equipment
- ✓ 2 x 240 Volt outlet ports for control of your own equipment
- ✓ Built in LCD screen for easier manual control

**Astralpool SLX Lights** are the perfect match for the Connect LITE+. Incorporating the latest in LED Light technology and encompasses features such as selectable colours, transitions and a 50,000 hour lamp life.

# CONNECT LITE +

The AstralPool Connect LITE+ is an integrated pool automation system that offers pool owners total control of up to four colour-changing LED lights (in 2 different zones if required), timer periods for the filtration pump and full integration with a Viron chlorinator. Sitting in between the Connect LITE and Viron Connect, the Connect LITE+ also includes four programmable timers and 240 V outlets to connect extra devices and give complete control of the pool.

The Connect LITE be further expanded to include internet connection for control by the ConnectMyPool app from anywhere in the world. Using the platform's mobile app, users can check that the different pool elements are working properly at all times and receive informative parameters and control data on chemical production levels.

## TOTAL LIGHTING CONTROLLER

Functionality to operate up to 4 x SLX Lights. RF Remote Control to activate and deactivate lights, change colours or return lights to Sync position with an easy one-touch button.

## EASIER MANUAL CONTROL

The incorporated built in front LCD screen allows for easier manual control of settings.

## EXTEND YOUR CONTROL

The Connect LITE+ comes with two extra 240V outlet ports, allowing the flexibility of controlling external equipment of your choice, such as a Cleaning pump, water feature pump, music system or garden lights, from either the RF Remote Control or the built in LCD screen.

## FULL INTEGRATION WITH CHLORINATORS

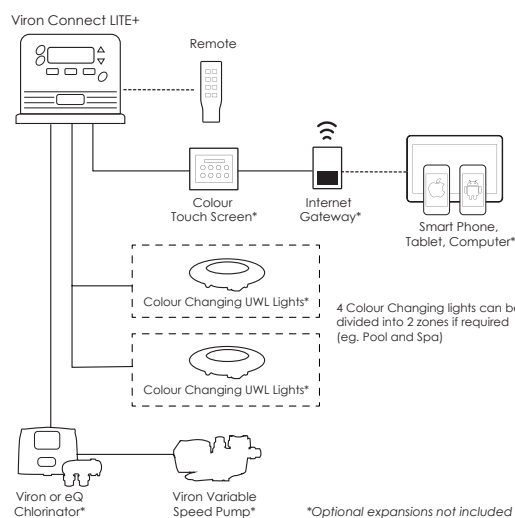

When connected to a Viron or EQ chlorinator, you will be able to easily control your pool's chlorination with your remote.

## CONVENIENCE AND COMFORT

Easily set programmable timers for easier convenience of pool maintenance and peace of mind.

## FULL FUNCTION REMOTE CONTROL

The included waterproof remote control can conveniently control your pool lighting system, chlorinator and the 2 extra 240V outlet ports, all at the click of a button.

## CONNECT MY POOL APP

Since the Connect LITE+ is an expandable integrated pool automation system, it can be easily upgraded to include a full colour touchscreen controller. The AstralPool internet gateway can then be easily added to enable full control with the ConnectMyPool app.
